

Complete Bike Line 2017

Welcome | 2017 Bike Line

We are really proud and excited to introduce Inspyre Bicycles.

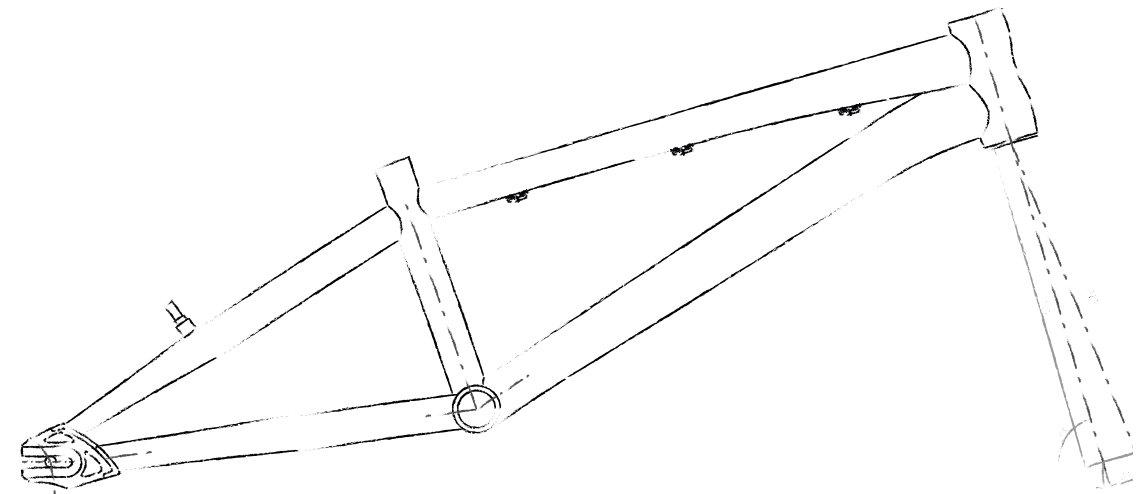

Inspyre Bicycles is specialized on frames and complete bikes. We have a strong background with over 30 years of experience in the BMX Racing, we put all our knowledges in our product to offer you the best quality and design with an innovative geometry. All our products are designed in France and our Frames are handmade to insure you the best quality.

It was a long year with a lot of hours behind the computer, discussions with riders, factory visits, designs, samples... We are now stoked to introduce The Evo Line.

All the bikes are 100% Racing ready and integrated premium alloy 6061-T6 with our reactive geometry.

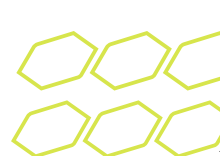

*« We ride, we listen, we create... We create what we ride »
Welcome to our world*

#rideinspyred

 **Premium Alloy 6061-T6**
Reactiv Geometry

Highlights

- Premium Alloy 6061-T6 with unique hydroformed tubing
- Wide downtube and oversize head tube for a better strength
- 100% Handmade frame
- Low standover thinking for kids with a short inseam
- Reactiv geometry design
- Cassette hubs 100% Sealed for an easier maintenance
- Double walls rims
- Gear ratio and cranks length thinking for kids
- Vee Tire Co Custom created for Inspyre Bikes

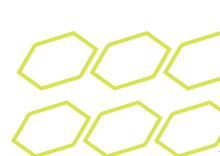

Geometry
