Superior bikes are being developed, designed, tested and built in the heart of Europe, in Kopřivnice, Beskydy Mountains. Our team consists of bike enthusiasts, proper racers and experts, who have been developing top racing bikes for decades. Our motto **#alwaysrace** really shows what our bikes are about, although racing is not the only goal. Every bike we build has to be Superior in every aspect: it has to be light, fast, easy to handle, reliable and also, comfortable.

Superior Bikes werden im Herzen Europas, in Koprivnice, in den tschechischen Beskiden, entwickelt, konstruiert, getestet und gebaut. Unser Team besteht aus Fahrradenthusiasten, echten Rennfahrern und Experten, die seit Jahrzehnten Top Fahrräder entwickeln. Unser Motto **#alwaysrace** zeigt wirklich, worum es bei unseren Fahrrädern geht, obwohl der Rennsport nicht das einzige Ziel ist. Jedes Rad, das wir bauen, muss in jeder Hinsicht Superior sein: Es muss leicht, schnell, einfach zu handhaben, zuverlässig und auch komfortabel sein.

Was uns einzigartig macht, ist unser reines, einfaches Design, bei dem die Funktionalität im Vordergrund steht. Wir glauben, dass zusätzlich zur Verwendung der besten Materialien und Technologien, Einfachheit der Weg ist, damit Sie Ihr Fahrrad gerne fahren - nicht nur für eine Saison, sondern für viele Jahre. Wählen Sie Ihr Fahrrad, gehen Sie raus und erleben Sie einen **Superior-Tag**!

What makes us unique is our pure, simple design, with a focus on functionality. We believe that above using all the best materials and technologies, simplicity is the way to make you love your bike – not just for one season, but for many years to come. Pick your bike, go out and have a **Superior day!**

All of you are team riders

Wir unterstützen alle Radfahrer. Für uns spielt es keine Rolle, ob Sie ein professioneller Teamfahrer sind, der an den XCO-Weltcup-Rennen teilnimmt, ob Sie Ihr Fahrrad am Wochenende benutzen, um in Form zu bleiben, oder ob Sie sich einfach entscheiden, das Auto stehen zu lassen und Ihr allererstes E-Bike für Ihr tägliches Pendeln zu kaufen.

Wir kümmern uns genauso um Sie und bauen unsere Fahrräder so, dass Sie sie genau so genießen können, wie Sie sie brauchen: Egal, ob Sie die Sekunden aus dem Rennen herausschinden oder die Vielseitigkeit und den Komfort eines Pendler-E-Bikes suchen. Für uns ist das einzig Wichtige, dass Sie Freude am Radfahren haben und einen Superior-Tag auf dem Rad verbringen.

We support all cyclists. For us, it doesn't matter if you're a professional team rider who competes on the XCO World Cup races, you use your bike on weekends to stay in shape, or you just decided to ditch the car and buy your very first e-bike for your everyday commute.

We care about you the same and build our bikes in a way that you can enjoy them exactly as you need: no matter if that means cutting the seconds out of the race or seeking versatility and comfort of a commuter e-bike. For us, the only important thing is that you enjoy cycling and that you have a Superior day out on a bike.

FULL-SUSPENSION MTB

FASTER THAN POSSIBLE

Our motto is **#alwaysrace**. It doesn't necessarily mean only watts, sweat, suffering in the races or making it to the podium. It is more about the competitiveness we are born with, our constant need to beat our personal limits, whatever they may be. To be faster, to make our bikes better, to give you a better riding experience. To give you a **#superiorday** on your bike. That's why we collaborate with the world's best riders, test our bikes in the most renowned labs and push our bikes to the limits of the world's top racing bikes whether it's XC racing models on 100 mm travel or trail bikes with 130 mm travel.

Unser Motto lautet: **#alwaysrace**. Es bedeutet nicht notwendigerweise nur Watt, Schweiß, Leiden in den Rennen oder den Sprung auf das Podium. Es geht vielmehr um die Wettbewerbsfähigkeit, mit der wir geboren werden, unser ständiges Bedürfnis, unsere persönlichen Grenzen zu überwinden, was immer sie auch sein mögen. Schneller zu sein, unsere Fahrräder besser zu machen, Ihnen ein besseres Fahrerlebnis zu bieten. Deshalb arbeiten wir mit den weltbesten Fahrern zusammen, testen unsere Fahrräder in den renommiertesten Labors und gehen mit unseren Rädern an die Grenzen der besten Rennräder der Welt, ob es sich nun um die XC-Rennmodelle mit 100 mm Federweg oder um Trail-Bikes mit 130 mm Federweg handelt.

BOOST standard axles for higher stiffness and greater stability of light wheelsets

A new kinematic system with sensitive characteristics, optimal reactions from the sag point to optimized end progression

100 mm travel for RC version, 130 mm for TR version in both carbon and alloy

Flat mount disc brakes for easier settings, smoother integrated design and easier maintenance

HARDTAIL MTB

RACE MODE ON

We want you to feel what it's like to speed up. To spin the cranks and feel every watt of your muscles transform into speed. To feel the bike react to every change of direction, to you feeling lighter, faster and completely in control. Our top model bikes are ready to win world class races in the spirit of #alwaysrace, our other bikes, in addition to sporting ambitions, aim to make any day in the saddle a #superiorday through their precise geometry, light weight and easy control.

Wir möchten, dass Sie spüren, wie es ist, zu beschleunigen. Die Kurbeln zu drehen und zu spüren, wie sich jedes Watt Ihrer Muskeln in Geschwindigkeit verwandelt. Zu spüren, wie das Fahrrad auf jede Richtungsänderung reagiert, wie Sie sich leichter, schneller und vollständig unter Kontrolle fühlen. Unsere Spitzenmodelle sind bereit, Weltklasse-Rennen im Geiste von #alwaysrace zu gewinnen, unsere anderen Fahrräder zielen neben sportlichen Ambitionen darauf ab, jeden Tag im Sattel durch ihre präzise Geometrie, ihr geringes Gewicht und ihre einfache Kontrolle zu einem #superiorday zu machen.

Progressive geometry for our modern XC range offering maximal control on technical trails

2 types of carbon frames for our racing Team/Race range, 2 types of lightweight alloy material with racing/ sport geometry for comfortable ride

Flat mount disc brakes – easy settings, smoother integrated design, easier maintenance

Smart details: Block Lock headsets, BOOST standard, light wheelsets

ROAD & GRAVEL

CHOOSE YOUR WAY

Our X-Road is the definition of a modern endurance bike. We tuned the frameset to the last detail for maximum rigidity, speed and performance on (and also off) the road. The perfect integration of cables and wires not only in the frame but also in the cockpit and fork underlines the minimalistic function-focused design. A design that has no rivals in its price range. And because not every road is of a racing track standard you'll find 30 mm tires on Gran Fondo racing models and 40 mm tires on Gravel models for a comfortable and safe ride.

Unser X-Road ist die Definition eines modernen Ausdauerrads. Wir haben den Rahmen bis ins letzte Detail auf maximale Steifigkeit, Geschwindigkeit und Leistung auf (und auch abseits der Straße) abgestimmt. Die perfekte Integration von Kabeln und Leitungen nicht nur im Rahmen, sondern auch im Cockpit und in der Gabel unterstreicht das minimalistische, funktionsorientierte Design. Ein Design, das in seiner Preisklasse keine Konkurrenten hat. Und weil nicht jede Straße Rennstreckenstandard hat, finden Sie bei den Gran Fondo-Rennmodellen 30 mm-Reifen und bei den Gravel-Modellen 40 mm-Reifen für eine komfortable und sichere Fahrt.

DT SWISS
DT SWISS

Internal Cable Routing for perfect integration: clean, modern looks as all hydraulic brakes cables and wiring are hidden within the frame

Road or Gravel groupset setup possibility for maximal versatility of the bike

URBAN

THE CITY BELONGS TO YOU

Our Superior Urban collection offers a wide variety of comfortable, fully equipped bikes for everyday commuting. Fast on tarmac roads, ready to explore dusty countryside trails and prepared to fight with curbs, pavements and tram rails of modern cities. These bikes were designed with front shock suspension for a great riding experience, it's rear rack, fenders, lights, kickstand or integrated chain guard make it an ideal every day, all-weather commuter bicycle.

Unsere Superior Urban-Kollektion bietet eine große Auswahl an komfortablen, voll ausgestatteten Fahrrädern für das tägliche Pendeln. Schnell auf asphaltierten Straßen, bereit, staubige Landwege zu erkunden und vorbereitet, mit Bordsteinkanten, Bürgersteigen und Straßenbahnschienen moderner Städte zu kämpfen. Diese Fahrräder wurden mit vorderer Stoßdämpferfederung für ein großartiges Fahrerlebnis entwickelt, und Gepäckträger, Schutzbleche, Scheinwerfer, Seitenständer oder integrierter Kettenschutz machen sie zu einem idealen Alltags- und Allwetter-Pendlerfahrrad.

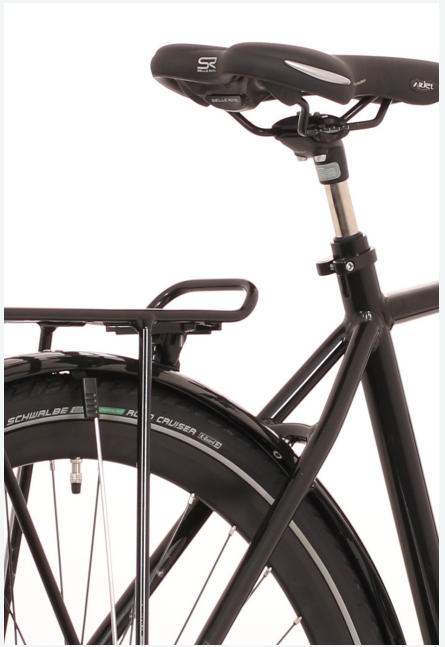

Comfortable all-day ride trekking geometry for relaxed commuting and touring trips

Lightweight aluminium frame with internal cable routing for plain and practical design

City/trekking ready: mudguards, lights, carrier, kickstand, chain guard and other handy accessories

Reliable Shimano groupsets for easy maintenance and long life, hydraulic disc brakes for perfect braking power in all weather conditions

JUNIOR

#ALWAYSFUN!

Yes, even our kid's bikes are race-ready. But for now let's forget the race factor. With kids, the only thing that matters is the joy of riding. The sheer happiness that comes with a new bike (yes, you still remember the goose bumps) and the first, second and third ride. If you choose the right bike for your kids you might just provide them with a life-long love and passion. And there is a solid chance that any bike day will be their **#superiorday**. Isn't it worth a try? Carefully chosen accessories and components such as smaller brake levers and derailleur shifters as well as short cranks aim to make Junior models some of the lightest bikes on the market. With 27.5", 24" or 20" wheels it is possible to choose the right size for pure joy of cycling.

Ja, sogar unsere Kinderfahrräder sind renntauglich. Aber vergessen wir vorerst den Rennfaktor. Bei Kindern ist das Einzige, was zählt, die Freude am Fahren. Die schiere Freude, die ein neues Fahrrad mit sich bringt (ja, Sie erinnern sich noch an die Gänsehaut) und die erste, zweite und dritte Fahrt. Wenn Sie das richtige Fahrrad für Ihre Kinder wählen, bieten Sie ihnen vielleicht ein Leben lang Liebe und Leidenschaft. Und es besteht eine solide Chance, dass jeder Radtag zu ihrem **#Superiorday** wird. Ist es nicht einen Versuch wert? Sorgfältig ausgewähltes Zubehör und Komponenten wie kleinere Bremshebel und Kettenschaltungen sowie kurze Kurbeln sollen die Junior-Modelle zu den leichtesten Fahrrädern auf dem Markt machen. Mit 27,5-Zoll-, 24-Zoll- oder 20-Zoll-Rädern ist es möglich, die richtige Größe für die pure Freude am Radfahren zu wählen.

Large range of gears for optimal and healthy progress and riding style of young riders

Extra light alloy frames for easy ride and control. Tipple butted alloy for Team models with inner routing

Ergonomics and size of the components meet the style, height and ability of the young riders

Lightweight wheelsets for easy acceleration and bike handling

E-MTB

FULL SPEED AHEAD

Our sport e-bikes are equipped with state-of-the-art Shimano and Bosch e-drives. These smart-systems will help you should you run out of energy and strength. Whether you lack the strength to get up that hill or the endurance to go through a long all-day spin, you'll find that with our e-bikes you spend a lot more time in the saddle and that you start enjoying cycling again. We build e-bikes in the same way as our classic bikes. Sporty geometry is identical as much as possible. The bottom line: Superior e-bikes are proper sports equipment which will help you to get stronger, faster, and healthier without losing that great achievement feeling.

Unsere Sport-E-Bikes sind mit hochmodernen Antriebssystemen von Shimano und Bosch ausgestattet. Diese intelligenten Systeme helfen Ihnen, wenn Ihnen die Energie und Kraft ausgeht. Egal, ob Ihnen die Kraft fehlt, um den Berg hinaufzukommen, oder die Ausdauer, um eine lange ganztägige Runde zu drehen, Sie werden feststellen, dass Sie mit unseren E-Bikes viel mehr Zeit im Sattel verbringen und dass Sie wieder Freude am Radfahren haben. Wir bauen E-Bikes auf die gleiche Weise wie unsere klassischen Fahrräder. Die sportliche Geometrie ist so weit wie möglich identisch. Das Fazit: Überlegene E-Bikes sind richtige Sportgeräte, die Ihnen helfen, stärker, schneller und gesünder zu werden, ohne das tolle Leistungsgefühl zu verlieren..

SCHWALBE
SCHWALBE

Same geometry as standard bikes to achieve the best possible control, speed and comfort

Ride the Revolution: NEW SHIMANO Steps EP8 system. 85 Nm, up to 630 Wh battery, extraordinary power with long-range and high durability, water, dirt and shock resistant

Full integration of cables and hoses for a clean look and protection of e-drive routing

NEW BOSCH Performance Line/ Active Line Plus: 65/50 Nm, up to 635 Wh battery for a quiet and powerful ride

SHIMANO STEPS

EP8: RIDE THE REVOLUTION
BRAND NEW E-DRIVE SYSTEM SHIMANO EP8 WITH ENORMOUS TORQUE OF 85 NM IS SMALLER, LIGHTER AND QUIETER. IT GIVES YOU NATURAL PEDALLING EXPERIENCE THANKS TO REDUCED DRAG, FULLY ADJUSTABLE POWER FOR EACH OF THREE LEVELS OF ASSISTANCE. IT ALLOWS YOU TO HANDLE YOUR E-BIKE WITH EASE IN ANY TERRAIN.

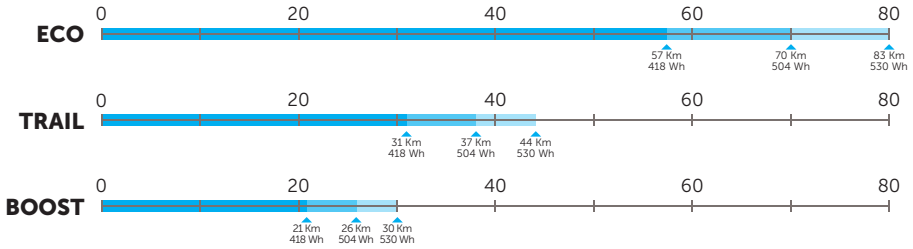

EP8

PRACTICAL BENEFITS

- **Lightweight for better handling**
- **Responsive, especially noticeable when riding above 25 km/h**
- **High but controllable power for added confidence**
- **Extensive customizable assistance**
- **Support when pushing your bike and walking. Riders can hop off and walk their bikes without needing to shift: 4 km/h in any gear**
- **Durable and weather-resistant for riding in all conditions**

RANGES SINGLE TRACK COURSE

MORE NATURAL FEELING

Shimano reduced drag of the motor by unbelievable 36 %, so after you hit 25 km/h speed limit, you can pedal smoothly and easy as on the standard bike. At 2.6 kg, the EP8 weighs 300 grams less than predecessor drive units. It is truly one of the lightest drive units available and delivers best-in-class power for its weight.

Shimano E-TUBE PROJECT

Full customization settings are available via E-TUBE PROJECT App and two pre-loaded ride profiles can also be accessed via your display. These will have you covered for a variety of terrain, from challenging singletrack and flowing fire roads all the way through to technical rocky sections. Choose from 10 levels of assist character, five levels of assist start or select and set the maximum amount of torque best suited to your ride style across three modes (Eco, Trail and/or Boost).

OFF-ROAD THRILLS

You don't have to be an experienced rider to enjoy recreational fun in the countryside. Easy to control, you'll immediately notice a smooth and natural experience as the E7000 subtly powers your ride in tune with your riding style. Durable and mud-resistant – whatever the weather – it's designed to handle off-road riding while you soak up the scenery. It rides like a dream and will leave you feeling healthy and energized.

Based on Shimano original test results: combined weight (rider + bike): 100kg
*Height meters: climbing distance

E-TOUR

ADVENTURE AWAITS

Our E-Tour bikes give you the opportunity to see and experience more. You will be able to ride further, to load all you need for a weekend out in nature or to discover the world after packing your tent, sleeping bag and enough clothes for a great adventure. Or you can just comfortably keep up with your family during a Sunday ride. Our popular e-bikes are now available not only on Shimano Steps but also on favourite and powerful Bosch Active Line and Performance Line Plus systems.

Unsere E-Tour-Räder bieten Ihnen die Möglichkeit, mehr zu sehen und zu erleben. Sie können weiter fahren, alles, was Sie für ein Wochenende in der Natur brauchen, aufladen oder die Welt entdecken, nachdem Sie Ihr Zelt, Ihren Schlafsack und genug Kleider für ein großes Abenteuer gepackt haben. Oder Sie können einfach bequem während einer Sonntagsfahrt mit Ihrer Familie Schritt halten. Unsere beliebten E-Bikes sind jetzt nicht nur für Shimano Steps erhältlich, sondern auch für die beliebten und leistungsstarken Bosch Active Line und Performance Line Plus Systeme.

ICR (Internal Cable Routing): clean, modern looks without visible cables makes our E-tour models one of the best-looking bikes on the market

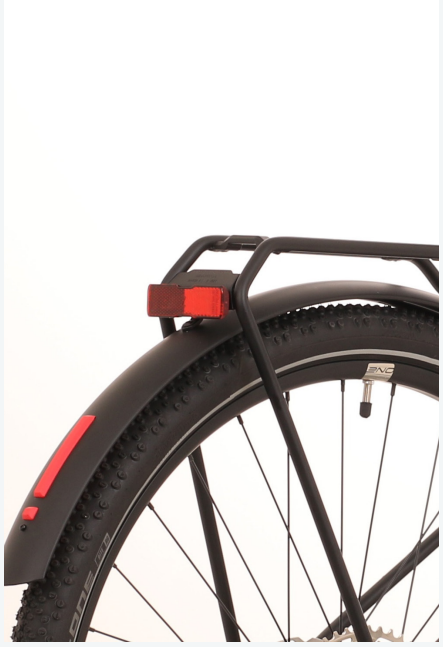

NEW popular BOSCH Performance Line/ Active Line Plus e-drive system for maximal range and power. 65/50 Nm, up to 635 Wh integrated battery

Fully integrated 504 Wh battery for long-range and easy handling

Fully equipped for city/trekking: mudguards, lights, carrier, kickstand, chain guard and other practical built-in accessories

BOSCH

For more than ten years, Bosch has been delivering innovative e-bike drive systems that offer the great performance and quality. They are designed for use on technical terrain, sophisticated sensor management means the power of the Bosch drive system can always be controlled. Powerful Bosch lithium-ion batteries with 500 or 625 Wh capacity supply the necessary power. The robust Purion display shows all of the important riding data such as speed, battery level and range at just a single a glance.

Riding modes

Off
No support (all display functions are still available)

Eco mode
Effective support with maximum efficiency for the greatest range

Tour
Uniform support for rides with long ranges

Sport/eMTB
Powerful support for all types of riding, such as a sporty ride or for fast commuting in city traffic.

Turbo
Maximum support delivered immediately - even up to the highest cadences for sporty riding.

Purion Display

Sporty and natural
Design meets functionality: Purion is the minimalist on-board computer for everyone wishing to have a neat look on the handlebar, be it for use in the city or the countryside. You get all important information conveniently at the touch of a button during the ride, with both hands remaining on the handlebar. Five different riding modes give you the correct support in every situation.

Performance Line Cruise

Sporty and natural

With a sporty torque of 65 Nm and high performance, the Bosch Performance Line provides the right support at the right moment, even in the mountains. The riding sensation remains natural with barely noticeable pedal resistance when switched off or at over 25 km/h. All of this and almost silent too - for maximum riding enjoyment.

65 Nm

Max. torque
It facilitates sporty acceleration even in high cadences

300%

Max. drive
Dynamic, ideal for extended sporty rides

25 Km/h Cruise

Drive Unit
For all requirements and speeds up to 25 km/h

Active Line Plus

For everyday adventures

Active Line Plus brings mobility to everyday life and extends your options for spontaneous trips. The quiet yet powerful drive unit offers significant riding enjoyment. It allows agile handling and fits perfectly inside the frame of the eBike. Incredibly quiet and barely noticeable pedal resistance over 25 km/h. New experiences and discoveries await!

65 Nm

Max. torque
For well-controlled acceleration

300%

Max. support
The versatile solution for city trips and light touring

25 Km/h Cruise

Drive Unit
Perfect delivery of support up to a maximum of 25 km/h
